

CASE STUDY

Frontier Psychiatry

Behavioral Health Workflow Automation with Athena Integration

The challenge

Manual processes and disconnected workflows slowed Frontier Psychiatry's operations and impacted care delivery. Challenges included:

- Inefficient patient intake and registration
- Time-intensive task management
- Disjointed patient communication systems
- Difficulty tracking and supporting high-risk patients

Our solution

Linear Health deployed a fully integrated platform, seamlessly syncing with Athena. Key tools included:

- ✓ **Patient communication:**
SMS and email integrated with Athena
- ✓ **Task management:**
Centralized workflows for efficiency
- ✓ **Digital intake:**
Forms with eSignatures for streamlined registration
- ✓ **Clinical assessments:**
Automated PHQ-9 and GAD-7 tracking
- ✓ **Analytics and alerts:**
Real-time insights for proactive care
